

OSCAR

Open Science Clusters' Action
for Research & Society

About

OSCAR is a four-year Horizon Europe project that will foster the uptake of Open Science in Europe by consolidating the achievements of world-class European Research Infrastructures (RIs) in the ESFRI roadmap and beyond into lasting interdisciplinary FAIR data services and working practices.

Objectives

- Setup and implementation of Clusters' Open Science Competence Centres (CLOCCs)
- Identify and provide Composable Open Data and Analysis Services (CODAS) via VREs)
- Support and structure an EOSC ecosystem in which all OSCAR-funded Open Science projects and services will contribute to a data space for science, research and innovation

OSCAR Open Calls for Open Science Projects and Services

OSCAR has launched two Open Calls (total worth ~16 million EUR) to support research communities from all scientific domains to take up Open Science and foster the involvement of scientists in EOSC. The goal is to select third-parties for the development of new, innovative Open Science projects or services, that together will drive the uptake of FAIR-data-intensive research across the European Research Area.

1st OSCAR Open Call in numbers

Proposals

264 Proposals received

610 Organisations

42 Countries

Funded projects

58 Funded projects

173 Organisations

28 Countries

10 Organisation types

Scientific domains

38 from domains in the 5 SCs

17 cross-cluster

3 beyond the domains of the 5 SCs

- University: 17
- RI: 10
- RTO: 15
- Non profit: 3
- SME: 3
- International org.: 3
- Pan-European org.: 1
- Project, network, initiative: 1
- Large enterprise: 1
- Other: 3

2nd OSCAR Open Call Launch Event

15 January 2025 11:00-12:30 CET

Open Call Submission Deadline:
17 March 2025

Funding:
Lump sum between 100K-250K €

Contact: opencall@oscars-project.eu

WHO CAN APPLY?

Research Infrastructures, Universities, Institutes, SMEs and large companies, consortia, and individual researchers from the EU, Associated Countries and beyond.
