CITING OSCARS

OSCARS is a four-year EU-funded project that strives to foster the uptake of Open Science in Europe by consolidating the achievements of world-class European research infrastructures in the ESFRI roadmap and beyond into lasting interdisciplinary FAIR data services and working practices. The project aims to strengthen the role of the Science Clusters in the ERA by developing domain-based Competence Centres and by fostering the implementation of Open Science projects funded through a cascading grant mechanism.

ACKNOWLEDGING OSCARS in publications

The authors acknowledge the OSCARS project, which has received funding from the European Commission's Horizon Europe Research and Innovation programme under grant agreement No. 101129751

When communicating about your project, please remind to always include the OSCARS logo and the EU emblem (see below)

Funded by

OSCARS is a four-year Horizon Europe project that will foster the uptake of Open Science in Europe by consolidating the achievements of world-class European RIs in the ESFRI roadmap and beyond into lasting interdisciplinary FAIR data services and working practices.

Fostering the uptake of Open Science in Europe

OSCARS will strengthen the role of the Science Clusters (SCs) in the European Research Area (ERA) by developing **Community-based Competence Centres (CCCs)** and **Composable Open Data and Analysis Services (CODAS)**, and by fostering the implementation of **Open Science projects and services** funded through a cascading-grant mechanism.

In response to the EU call on EOSC
HORIZON-INFRA-2023-EOSC-01-01

Building on the **Science Cluster approach** (since 2019)

Coordinator: **CNRS-LAPP**

15 partners, 2-3 representing each Science Cluster

Duration: **4 years (Jan 2024 – Dec 2027)**

EC funding: **25 M€**

OBJECTIVES

Setup and implementation of **Clusters' Open Science Competence Centres (CLOCCs)**

Identify and provide **Composable Open Data and Analysis Services (CODAS)**

Contribute to a **Data space for science, research and innovation**

€ 16 MILLIONS

IN OPEN CALLS FOR
**OPEN SCIENCE
PROJECTS AND SERVICES**

Led by:

With the projects funded via a cascading-grant mechanism, OSCARS and our project will contribute to a

Data space for science, research and innovation

Pursuing the creation of

Pan-European research-enabling value-added services

€ 16 MILLIONS

IN OPEN CALLS FOR
OPEN SCIENCE
PROJECTS AND SERVICES

With its two Open Calls for Open Science projects and services, OSCARS has involved a broad range of research communities in Open Research via the development of new **Open Science projects and services** to drive the uptake of FAIR data-intensive research throughout the ERA.
